

DOG AT A GLANCE

Dog's name: Bakhita Gender: Female	Breed: French Bulldog
Colour: Lilac & Tan	Age: Approx 3 Years Old
Neutered: No	Medical needs: On-going* - to be discussed
Can live with other dogs? Yes, a well-mannered, calm, neutered male	Can live with cats? Untested, so no
Can live with children? Older children preferred	Preferred age of children? 12+ Years
<p>Any additional training needs: Bakhita's basic manners are very good, but she really would benefit from a gentle back to basics approach. She is affectionate and keen to please. She has come from a very abusive background, so she can be fearful but once you have won her trust, she is your very best friend.</p> <p>Her anxiety needs to be helped too, but this does improve as her confidence grows and we will give as much support as we can to manage this.</p> <p>*She has had demodex and has fur loss and some areas of sore skin, but this is improving hugely already and will not be likely to need further attention. She is being medicated for some minor urinary incontinence, we are also monitoring this.</p>	<p>Type of home needed: One that is not too rowdy or busy, but she does seem to adore all humans – amazingly so, after her past life. She loves car travel and walks very nicely on the lead too, making her a great companion dog</p> <p>We won't place her with very young children as this may be too much for her, but she does seem to seek solace in a canine friend, but he must be willing to share and due to having been very under-fed for at least 3 months (she is still very thin but improving daily), she will need to be fed separately, to avoid any scuffles.</p> <p>Bakhita will be easy to train to do most things, as she is a foody so this can be harnessed for good.</p>
If the fosterer decides to adopt this dog at the end of the foster period, the fee will be:	£450
