

DOG AT A GLANCE

Dog's name: FIORI (F)	Breed: FRENCH BULLDOG X POCKET BULLIE
Colour: BLUE	Age: 4 YEARS OLD
Neutered: YES	Medical needs: NONE
Can live with other dogs? YES, MALE	Can live with cats? UNTESTED
Can live with children? YES	Preferred age of children? ANY THAT ARE DOG-SAVVY
<p>Any additional training needs:</p> <p>This little lady has had a bumpy start to her life but the past couple of years have seen her settle nicely but now she is very sadly needing to be rehomed. Fiori can be cautious of strangers, and so this must taken into account when she meets new people. She will only bark, but it upsets her more than anything else, so this still needs working with to help her build her confidence, as some regressing is likely when moved</p>	<p>Type of home needed:</p> <p>Fiori needs a home that won't be fazed by her woofs, and that really is all they are, but that can help her feel confident and loved. A calm male will help to show her the way and she has been used to having a buddy, so we would like to match that again. She as lived as part of a family with very young children too.</p> <p>She is a very sturdy and pretty dog; she has the Frenchie tail (stub) and almost has Frenchie ears, they just tipple a tad!</p>
