<p>Any additional training needs:</p> <p>Another little love who has had a bumpy start in her young life, but she is still very happy and very bouncy, so will need on-going training just for basic manners. She is a needy girl who loves her cuddles and is also a very greedy girl who will eat as much as she can get including other dog's food! Absolutely no malice in her, just needs guidance as she is still young in years and at heart</p>	<p>Type of home needed:</p> <p>Although she will make a fabulous family pet, she can jump up so a home where any young children are dog-savvy is essential. She loves ladies and can take longer to take to a man, but once she knows all is well she warms to them too. Life is ALL about how much fun and food Snips can have! That said she is not destructive if left and is actually a good girl, just happy and affectionate – and greedy!</p>
