

What is a Road Train?

You may often see posts on our social media asking for help with a Road Train and wonder what is needed.

At Phoenix we will always do our utmost to get a dog to its perfect home, wherever that may be - Cornwall to Scotland is not unheard of. This clearly offers some logistical issues.....

So, we have a dedicated bunch of volunteers who are part of the Phoenix Flyers and when a dog needs to travel to a new home they take a section of that journey, to make it all possible.

If you see a post asking for help, it will be because we have an uncovered section of a journey and need your help. It can be the difference between getting a dog to safety and love, or not. You will need to have signed a confidentiality form and understand the Transportation Guidelines.

Even if you only help a couple of times a year, be it 10 or 100 miles, the sense of pride is immeasurable. You see that dog moving forward to a life it may never have had.
